This resource was initially developed as part of the Improving Rural Cancer Outcomes project by The University of Western Australia, Cancer Council WA and Department of Health WA's Rural Cancer Initiative project team, which investigated ways to improve cancer outcomes for people in rural WA. The resource was last updated by Cancer Council WA in March 2021. Evidence based clinical guidelines for the prevention, diagnosis and management of cancer to inform clinical practice in the Australian context are available online at [wiki.cancer.org.au/australia/Guidelines](https://wiki.cancer.org.au/australia/Guidelines)

For support and information on cancer and cancer-related issues, call our Cancer Council nurses on **13 11 20** or visit [cancerwa.asn.au](https://cancerwa.asn.au)  
Calls are confidential and available statewide Monday to Friday during business hours.
